WINTER 2021

EVERY PURCHASE OVER \$60 FOR THE MONTH OF JUNE WILL RECEIVE A

FREE MOROCCAN TREATMENT OIL 10ML SAMPLE

Get the silky, shiny and healthy hair you've always wanted. Moroccan Treatment Oil is the product that pioneered oil-infused hair care and created the worldwide buzz on argan oil. The original foundation for hairstyling, Moroccan Treatment can be used as a conditioning, styling and finishing tool. Infused with antioxidant-rich argan oil and shine-boosting vitamins, this completely transformative hair treatment detangles, speeds up drying time and boosts shine—leaving you with nourished, manageable, and smooth hair with each use. Outshine the rest.

Just one application of Moroccan Treatment increases hair's shine by up to 118%, according to an independent study.

TIPS & TRICKS

- For those fine hair ladies that need volume but also need purple pigments to counteract brassy tones or neutralize grey...pick your favourite Volumizing Shampoo and add some drops of the **KERACOLOUR Violet Toning Drops** and woolahhh :)
- Cold weather and heating doesn't just impact our skin, but our hair too. Use a **Moisture Rich Davroe Shampoo and Conditioner** during the colder months. You probably won't be able to completely avoid winter dryness, so once a week use intensive **Davroe MCT moisture treatment** which will help winter proof your hair.
- Warm up this winter with our Invigo **Nutri Enrich Self Warming Mask**, brings softness to dry stressed hair, with almond and apricot extract.
- Feeling brassy after summers end? Try the **System Professional Silver Shampoo** non drying formula, its non staining and perfect for cool tones in bleached, highlighted and grey hair.
- To tone blonde hair without inserting any purple pigmentation; **Wella Blonde Recharge Cool Shampoo and Conditioner** work well together.
- If your hair feels weighed down and lifeless; a deep cleanse weekly can help to remove build up.. Try **Wella Invigo Aqua Pure**.
- Get your ultimate winter style with **Joico Dream Blowout Thermal Protection Creme**. 50% faster drying time, heat protection up to 212C, guards against frizz and humidity, leaves hair silky smooth and shiny.
- Define your Winter Curls with **Wella Curlxir Balm**. Intense nourishment with a soft hold, definition and bounce. Can be used wet and on dry hair in between washes.
- Save time in the morning by keeping your GHD Styler in a **GHD carry case** overnight to keep them well insulated, rather than a cold surface. If the temperature is lower than 8 degrees, it can disrupt your styler from switching on and heating up normally.
- Be aware that on cool days with condensation and moisture in the air, this can be attracted to the alcohol in your hairspray. Once a month soak your hairspray nozzle in hot water and dishwashing liquid; dry completely and put back onto your hairspray container. This will keep it spraying perfectly in the cooler months.
- Is it too cold outside for a night out? Have a night in instead with the **Invigo Nutri Enrich Warming Express Mask**. A self warming hair treatment that brings shine and softness on dry or stressed hair. Apply on damp hair and wait for the warming effect to develop.
- Try separating your curls or waves for more of a beachy look with our new NZ made **Eco Combs**. Perfect for running through waves for texture, without compromising the curl.
- Is your colour feeling dull for Autumn and Winter? Check out our range of Delorenzo Novafusion Coloured Shampoos to lightly enhance your colour, with amazing shine. Or for more fashion or intense shades try one of the Juuce Love Conditioning Treatments or Keracolor Conditioners to instantly give your colour a shot of excitement and vibrancy to make those cooler months less drab.
- Did you know you should be shampooing your hair twice?? First shampoo helps to breakdown and remove oil and product build up, then the second shampoo cleanses the scalp.
